

HARE KRISHNA AUTOMATION

ABOUT US

Hare Krishna Automation is a company specializing in industrial automation solutions, particularly in the areas of PLC, HMI, VFD, Servo Motors & Drivers, Control Panels and offering a range of automation instruments and related services. We also provide solutions for various industrial automation needs, including various sensors, instrumentation, printing solutions, switchgears, industrial spares, ss furnitures, spm machines. The company is known for its expertise in sourcing and supplying both indigenous and imported spares and capital equipment.

Programmable Logic Controller (PLC)

Human Machine Interface (HMI)

Variable Frequency Drive (VFD)

Servo Motors Drives

Relay Cards & Single Relay

Encoders

Switched Mode Power Supply (SMPS)

Gear Motors

Solid State Relay (SSR)

Panel Mount Scanner

Limit Switches

Temperature Controller

Current Transformer (CT)

Digital Timers & Protector

Automatic Power Factor Controller (APFC)

Analog Timers & Protection Relay

Multifunction Meters

DIGITAL / ANALOG

LINE MONITORING
SPP / PSR Selectable
Over / Under Voltage selectable

VOLTAGE MONITORING
Under & Over Voltage

CURRENT MONITORING
Under & Over Voltage

Hygrometers

Single Use Data Logger

Jumbo Displays

All Type Sensors For Different Applications

Temperature Transmitter

Level Transmitter

Thermocouples

Flow Instruments

Pressure Gauge

Pressure Instruments

Angel Valves

Differential Pressure (DP) Gauges

(Tij) Inkjet Printer

Inkjet Printer Cartridge

Coding Conveyor

Barcode Printer & Scanner

Handheld Printer

Door Interlockig System

Barcode Scanner Roll & Ribbon

Biometric & Acces Recorder

Data Converter

Control Panels

Miniature Circuit Breaker (MCB)

Motor Protection Circuit Breaker (MPCB)

Molded Case Circuit Breaker (MCCB)

Change Over Switch

Contactors

Overload Relay (OLR)

DOL Starter

Panel Enclosure Box

Indicator, Tower Light, Panel Fan, Push Button, Emergency Stop Switches, Operating Pendant Box, Foot Switches, Selector Switches
